

LF-GMR060YEIIxxxxH(U)
EU-Standard Isolated LED Driver for LED Tri-Proof Light

Product Description

LF-GMR060YEIIxxxxH(U) is a 60W isolated constant current LED driver. It has a linear metal casing. It has high power factor and high efficiency. Its rated input voltage ranges from 220Vac to 240Vac. Its output voltage ranges from 27-40Vdc with output currents of 1300mA, 1350mA, 1400mA, 1450mA and 1500mA.

Feature

- Electrical type: constant current output
- Description: EU-standard, with a linear metal casing, active PFC
- Product feature: high performance, high efficiency, high PF
- Warranty: 5 yrs (Please refer to the warranty condition.)
- Options: the built-in assembled version or the external assembled version

The Built-in Assembled Version

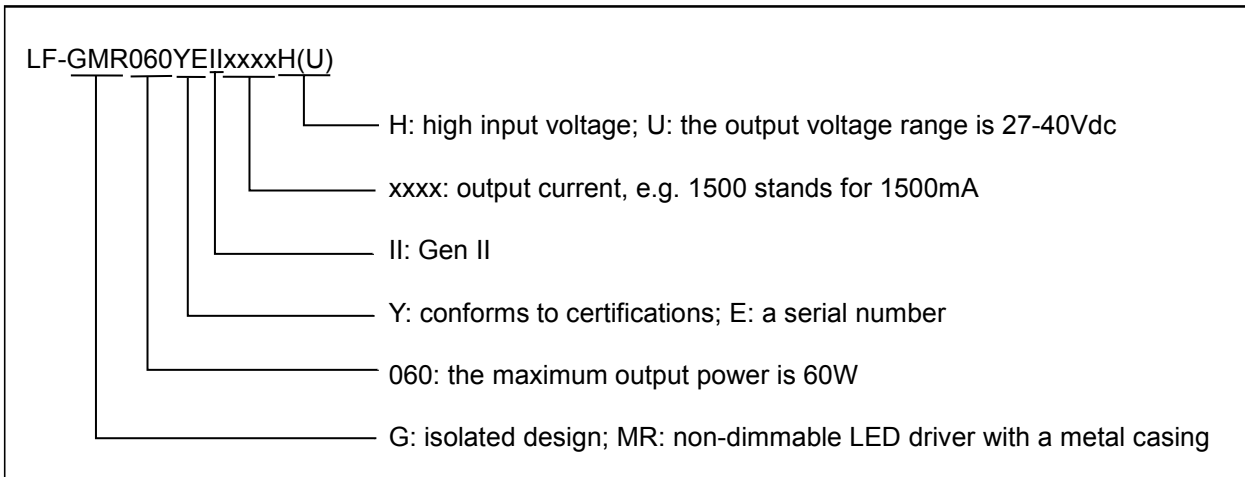

Application

- Plant lighting
- Indoor office lighting
- Decorative lighting
- Commercial lighting
- Residential lighting

The External Assembled Version

	Warranty	5 yrs (TC≤90℃)
	Noise Rating	≤29dBA (Tested in a soundproof room and the noise collector was 10cm away from the driver.)
Remark	<p>1. It is recommended that customer should install overvoltage and undervoltage protection devices and surge protection devices in the power supply circuits of the light fixtures to ensure safety before connecting to electricity.</p> <p>2. The PC cover, casing, end caps and other parts of the LED driver inside the LED light fixture must conform to UL94-V0 flammability standard or above.</p> <p>3. As an accessory, the LED driver is not the only factor determining the EMC performance of the LED light fixture. The structure and the wiring of the light fixture are also relevant. Thus it's strongly recommended the LED light fixture manufacturer re-confirms the EMC of the whole LED light fixture.</p> <p>4. Unless otherwise stated, the parameters of the power factor, harmonic and efficiency were test results under the ambient temperature of 25±5℃, humidity of 50% and full load.</p>

Package Specification

Model	LF-GMR060YEIIxxxxH(U)
Box Size	385*285*210 mm (L*W*H)
Quantity	8 pcs/layer; 6 layers/ctn; 48 pcs/ctn
Weight	0.17 kg±5%/pc; 8.5 kg±5%/ctn

Transportation & Storage

1. Transportation

Transportation means: vehicles, boats and aircraft.

During transportation, there should be awnings and sun protection. Civilized loading and unloading are required. There should be no severe vibration or impact.

2. Storage

Storage in accordance with the provisions of Class I environment. Products which have been stored for more than six months must be re-inspected. Use them only if they can pass the re-inspection.

Attention

- * Use this product according to the specifications, please. Otherwise there may be malfunction.
- * Use luminaires that have not been certified or are not compatible with the drivers may cause fire, explosion or other hazards.
- * Man-made damage is not covered by warranty.
