NOTES TO CONDENSED CONSOLIDATED INTERIM FINANCIAL STATEMENTS

For the six months ended 30 June 2009

1. BASIS OF PREPARATION

These condensed consolidated interim financial statements have been prepared in accordance with Hong Kong Accounting Standard (“HKAS”) 34, Interim Financial Reporting issued by the Hong Kong Institute of Certified Public Accountants (“HKICPA”) and the applicable provisions of Appendix 16 of the Rules Governing the Listing of Securities on The Stock Exchange of Hong Kong Limited. These condensed consolidated interim financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the consolidated financial statements of the Group for the year ended 31 December 2008.

These condensed consolidated interim financial statements are unaudited, but have been reviewed by the audit committee of the Company and approved for issue by the Board of Directors on 21 September 2009.

2. PRIOR PERIOD ERROR

Reference is made to the announcement of the Company dated 24 April 2009. The board of directors of the Company (the “Board”) clarified that the interest receivable from Nan Hai Corporation Limited (“Nan Hai”), the ultimate holding company of the Company, for the six months ended 30 June 2008 in the amount of HK\$65,984,000 was omitted in the interim results for the six months ended 30 June 2008. As a result, the corresponding income tax expense was omitted and accordingly the loss shared to the minority interests for the six months ended 30 June 2008 was overstated. The correct figure of the loss attributable to equity holders of the Company for the six months ended 30 June 2008 should be HK\$11,926,000 instead of HK\$70,510,000. Details of the restatements made in respect of the interim financial statements for the prior period are as follows:

Consolidated Income Statement

Items	Interim report 2008	Restated
	HK\$'000	HK\$'000
Other operating income	3,994	69,978
Income tax credit	9,935	2,535
Loss for the period	(70,510)	(11,926)
Loss attributable to equity holders of the Company	(60,602)	(2,885)
Loss attributable to minority interests	(9,908)	(9,041)
Basic and diluted loss per share from continuing operations	HK cents (0.540)	HK cents (0.250)
Basic and diluted loss per share	HK cents (0.304)	HK cents (0.014)

Certain comparative figures have been restated to reflect the above rectification.

3. SIGNIFICANT ACCOUNTING POLICIES

These condensed consolidated interim financial statements have been prepared on the historical cost basis except for financial instruments classified as available-for-sale and at fair value through profit or loss which are stated at fair values. The accounting policies used in the preparation of these condensed consolidated interim financial statements are consistent with those set out in the Group's annual financial statements for the year ended 31 December 2008, except that the Group has applied, for the first time, a number of new and revised standards, amendments and interpretations (the "new and revised HKFRSs") that are relevant to and effective for the Group's financial statements for the annual period beginning on 1 January 2009.

HKAS 1 (Revised 2007) Presentation of Financial Statements has introduced a number of terminology changes, including revised titles for the condensed consolidated interim financial statements, and has resulted in a number of changes in presentation and disclosure. HKFRS 8 Operating Segments is a disclosure standard that requires the identification of operating segments to be performed on the same basis as financial information that is reported internally to the chief operating decision maker for the purpose of allocating resources between segments and assessing their performance. The predecessor standard, HKAS 14, Segment Reporting, required the identification of two sets of segments (business and geographical) using a risks and returns approach. During the six months ended 30 June 2008, the Group discontinued its property development business. Financial information was no longer reported on property development business as it was not considered an operating segment according to HKFRS 8. Except for this discontinued operation, the adoption of HKFRS 8 has not materially affected the other identified and reported operating segments for the Group, however, comparative figures have been represented on a basis consistent with the new standard.

Apart from certain presentation changes, the adoption of the new and revised HKFRSs has no material impact on the Group's results and financial position for the current and prior periods. Accordingly, no prior period adjustment is required.

The HKICPA has also issued a number of new standards, amendments to standards and interpretations which are effective for the financial year beginning after 1 January 2009. The Group has not early adopted these standards. The directors are currently assessing the impact of these new and revised HKFRSs upon initial application but are not yet in a position to state whether they would have material financial impact on the Group's results and financial position.

4. SEGMENT INFORMATION

The Group is organised into several operating segments, financial information services, corporate IT application services and distance learning education services. MANAGEMENT DISCUSSION AND ANALYSIS

OPERATION REVIEW

The Group was principally engaged in corporate IT application services, financial information services and distance learning education services.

The global financial crisis has seen signs to stabilize in mid-2009. In China, there are indicators showing significant economic recovery after implementation of a series of economic stimulus packages by the government. As a result, the market sees healthy expansion in domestic consumption and gradual improvement in trades.

During the period, turnover and net loss attributable to the equity holders of the Company were approximately HK\$195.2 million (6 months ended 30 June 2008: HK\$224.4 million) and HK\$87.2 million (6 months ended 30 June 2008 (restated): HK\$2.9 million) respectively. The net assets of the Group attributable to equity holders was approximately HK\$2,168.5 million (31 December 2008: HK\$2,256.8 million), representing a value of HK\$0.109 per share.

The increase in loss was mainly attributable to the following extraordinary items in 2008:

1. an extraordinary profit from disposal of 北京金世紀大酒店有限公司 (Beijing Golden Century Hotel Limited), a subsidiary of the Company;
2. tax refund by the tax authority in the PRC resulting from capitalization of retained profit by CE Dongli Technology Group Company Limited ("CE Dongli"), a subsidiary of the Company; and
3. tax loss was used to set off part of the provision of tax for interest income from the outstanding receivables from Nan Hai, in respect of the disposal of 51% Listar Properties Limited but no tax loss can be used to set off in 2009.

Stripping out the above impacts in 2008, turnover and net loss attributable to the equity holders of the Company during the period should be approximately HK\$195.2 million (6 months ended 30 June 2008: HK\$224.4 million) and HK\$87.2 million (6 months ended 30 June 2008: HK\$63.3 million) respectively.

MANAGEMENT DISCUSSION AND ANALYSIS *(continued)*

OPERATION REVIEW *(continued)*

Corporate IT Application Services

During the period, turnover of this division was approximately HK\$183.3 million (6 months ended 30 June 2008: HK\$195.6 million) and the net loss before income tax was approximately HK\$113.6 million (6 months ended 30 June 2008 (restated): HK\$91.7 million).

The unfavourable economic environment has an impact on demand for IT application services in China. As a result, there was a decrease in turnover of the Group during the period. However, since the beginning of the second quarter of 2009, there are signs of improvement in demand for the IT application services in the market and in the sales of the Group.

Financial Information Services

During the period, turnover of this division was approximately HK\$9.8 million (6 months ended 30 June 2008: HK\$11.0 million) and the net loss before income tax was approximately HK\$21.0 million (6 months ended 30 June 2008: HK\$17.9 million).

北京世華國際金融信息有限公司 (Beijing Shihua International Financial Information Company Limited), a subsidiary of the Company, will continue to invest in a prudent manner and promote its new product line. The Group is confident that the business performance of this division will improve in the near future, which in turn will generate satisfactory return for the Group because of growing financial market in China.

Distance Learning Education Services

During the period, turnover of this division was approximately HK\$2.1 million (6 months ended 30 June 2008: HK\$4.9 million) and the net loss before income tax was approximately HK\$2.8 million (6 months ended 30 June 2008: HK\$2.2 million).

This division has established strategic partnership with the relevant Education Bureau of China. Furthermore, new policies are introduced by the Education Bureau for encouraging distance learning education. As a result, the Group is well positioned to benefit from such development.

MANAGEMENT DISCUSSION AND ANALYSIS *(continued)*

LIQUIDITY, FINANCIAL RESOURCES AND CAPITAL

The Group continues to adopt prudent funding and treasury policies. EXPOSURE TO FLUCTUATION IN EXCHANGE RATE

The majority of the Group's borrowings and transactions were denominated in US dollars, Renminbi and Hong Kong dollars. Both the operating expenses and revenues were primarily in Renminbi. It is expected that the exchange rate of Renminbi will continue to appreciate resulting from the continuous economic growth in China. The Group's reporting assets, liabilities and profits may be affected by the Renminbi exchange rate. Although the Renminbi exchange risk exposure is not significant during the period under review, the Group will keep on reviewing and monitoring the exchange risks between Renminbi and Hong Kong dollars. For the funding in US dollars, Hong Kong dollars has been linked to US dollars, and Hong Kong dollars are the reporting functional currency of the Group, the management of the Group considers the exposure on exchange risk is not significant. The Group may proceed to have some kind of foreign exchange hedging arrangements when appropriate and necessary.
