## NORFLEX® PUR 441 ROBOTIC

Abrasion resistant polyurethane hose/ tubing for industrial robots, fabric reinforced high pressure hose

#### **Application**

- flexible hose/ ducting for liquids and for gases and for abrasive solids
- injection moulding tool cooling, cooling water supply
- agricultural industry: high pressure spraying hose e.g. for pesticides
- compressed air hose, cooling water hose, water hose
- fabric reinforced hose/ braided hose
- industrial robot, robotic, welding equipment, welding robot, welding gun: welding spot resistant hose, hose for dresspack for media as water and air
- heating hose: interior hose for media transfer

· highly abrasion resistant

• conforms to RoHS guideline

• good resistance to oil, gasoline and chemicals

• REACH according to --> Technology /

Technical Information / REACH

Temperature Range

- 35°C to 80°C

crush resistant

#### Design

- NORFLEX® design
- fabric reinforced wall
- · smooth interior and exterior

 wall: special premium polyurethane (Pre-PUR<sup>®</sup>)

#### **Delivery variants**

- further diameters and lengths available on request
- transparent (standard)
- grey (standard)
- black (standard)
- blue (standard)
- red (standard)
- yellow (standard)
- green (standard)
- special colours: full coloured
- customer-specific branding

#### **Properties**

- fabric reinforced
- · highly flexible

I.D.	outer Ø	Pressure	Burst Pressure	Bending Radius	Weight	Dimensions in Stock	Production Lengths	Order No.
(in / mm)	(mm)	(bar)	(bar)	(mm)	(kg/m)	(m)	(m)

Overpressure and underpressure are recommended threshold operating values, products can be subjected to higher loads upon request. The bending radius is measured through the inside of the hose arch. The right to make technical modifications is reserved. All values determined at 20°C and are approx. data.
